Before you get stuck with a data communication network that won't grow when you grow,  
**talk to Datapak.**

*The highly advanced data communication network that's flexible and powerful enough to grow as quickly as your business demands.*

**Datapak is the solution.** It is capable of growing as fast and as big as your business can possibly grow. To expand your network, all you need are extra connections to Datapak!

**Datapak gets computers to talk to each other.** Datapak is the key to computer communications between decentralised offices.

Whether your branch offices are across the street, across the harbour, or even across oceans, so long as they have computer terminals, Datapak can link every office together!

**Datapak is professional.** When you use Datapak, you have the support of Hong Kong Telephone's data communication experts.

You are assured of dedicated professionals from the company with more than a hundred years' experience in communications behind it.

**Talk to us. Call us today.** We'll be glad to help you with your problems, answer your questions, arrange demonstrations. All at no cost and with no obligation!

**'Dial-Up' access is also available.**

Send the coupon or call us on 5-287170.
