## Advisers get lecture from Jiang

HONGKONG'S official advisers to China started the second day with a 40-minute lecture from Chinese Communist Party General Secretary Mr Jiang Zemin.

Mr Jiang said Britain had considerable interests in Hongkong and that it was in Britain's interests to cooperate with China.

He highlighted China's economic reforms and told the Hongkong advisers that China would maintain its "one country, two systems" policy towards the territory.

He said the policy would help speed economic reform on the mainland and maintain prosperity and stability in Hongkong.
